### DESIGN OVERVIEW:

The low cost “SLIM FAN-LESS BRICK” series low Ku-Band BUCs are the next generation of the World’s Most efficient and compact size BUCs in the industry, weighing only 1.1lbs and handling output power of 10W at the Ku-Band frequencies. We’ve picked the most mature, reliable and proven to be highly efficient amplifiers with internal overdrive protection. Each unit is vigorously tested at our California facility according to our ATP (Acceptance Testing Procedure).
